## Section 1: Identification

**Calcium Hydroxide**  
*Ca(OH)2*

### Product Line
- MicroCal – HF, HFT20, HM, HS;  
- PetroCal – HF, HM, HS;  
- Standard Hydrated – Lime, CG, FGT, HRH, HRH-64, SP;  
- Liquid Calcium Hydroxide (LCH);  
- MP Liquid Calcium Hydroxide (MPLCH);  
- VitaCal – H, LCH;  
- Architectural Lime Putty, Stover Cal H

### Product Uses
- Building material industry, Chemical industry, Agriculture, Biocide applications, Environmental protection (e.g. flue gas treatment, waste water treatment, sludge treatment), Drinking water treatment, Feed, food and pharmaceutical industry, Civil engineering, Paper and paint industry, Glass industry, Leather.

### Manufacturer
Mississippi Lime Company  
16147 US Highway 61, Ste Genevieve, MO 63670

### 24 Hour Emergency Contact Number:  
(800) 437-5463

## Section 2: Hazard(s) Identification

### GHS Classification

<table>
<thead>
<tr>
<th>GHS Classification</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin Irritation</td>
<td>Category 2</td>
</tr>
<tr>
<td>Eye Damage</td>
<td>Category 1</td>
</tr>
<tr>
<td>Carcinogeneity</td>
<td>Category 1A</td>
</tr>
<tr>

</tr>
</tbody>
</table>

### Signal Word
DANGER !

### HAZARD
- H 315: Causes skin irritation  
- H 319: Causes serious eye irritation  
- H 335: May cause respiratory irritation

## Precautionary Statements

### PREVENTION
- P 102: Keep out of reach of children.  
- P 261: Avoid breathing dust.  
- P 280: Wear protective gloves/ protective clothing/ eye protection/ face protection.  
- P 402: Store (dry product) in dry place  
- P 501: Dispose of contents / container in accordance with... regulations.

### RESPONSE
- P 302 + P 352: IF ON SKIN: Wash with plenty of soap and water.  
- P 304 + P 340: IF INHALED: Remove victim to fresh air and keep at rest and comfortable.  
- P 305 + P 351: IF IN EYES: Rinse cautiously with water for several minutes.

Section 4: First-Aid Measures

**Eye Contact**
Irritation - Irrigate eyes with water immediately for at least 15 minutes. Consult a doctor.

**Skin Contact**
Irritation - Wash affected area with water. Change out of contaminated clothing when practical.

**Ingestion**
Wash mouth and drink copious quantities of water. Do not induce vomiting. Consult a doctor.

**Inhalation**
Irritation - Move victim to fresh air and treat for discomfort. Consult a doctor if difficult breathing.

**Medical**
No delayed effects. Treat symptomatically.

Section 5: Fire-Fighting Measures

**Flammability**
Nonflammable and noncombustible.

**Extinguishing Media**
Use dry powder, foam or CO2 extinguishers to fight surrounding fire.

**Special hazards**
None.

**Advice for fire-fighters**
Wear appropriate personal protective equipment.

Section 6: Accidental Release Measures

**Precautions**
Avoid contact with skin and eyes and keep dust levels to a minimum. Ensure adequate ventilation and/or suitable respiratory protective equipment (Section 8).

**Environmental**
Control and minimize releases to watercourses and storm drains. Notify Environmental agencies of significant spillage into water.

**Containment**
Contain spillage and keep material dry and covered if possible to minimize dust hazard.

**Clean-up**
Keep material dry if possible. Use vacuum systems, if available, and/or broom and shovel. Use salvage drums for dry and wet collection.

**Disposal**
Check Federal State and Local restrictions or recycle and reuse for beneficial applications.

Section 7: Handling and Storage

**Precautions for Safe Handling**
Avoid excessive dust in work area and ensure adequate ventilation. Use dust mask when appropriate. Avoid contact with skin and eyes. Use appropriate eye protection. Avoid extended contact with skin and clothing. Avoid ingestion and contact with food.
### Precautions for Safe Storage

Keep product dry and bags and containers stored in dry and well-ventilated location place. Store bulk in dry properly designed bins and silos. Keep out of reach of children. Calcium hydroxide will react with air, strong acids and moisture.

### Section 8: Exposure Control / Personal Protection

#### Ingredient

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>CAS</th>
<th>Concentration</th>
<th>Exposure Limit (mg/m3)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calcium Hydroxide Ca(OH)2</td>
<td>1305-62-0</td>
<td>Solids 95-100% (Dry Basis)</td>
<td>OSHA PEL (TWA) 8/40h</td>

</tr>
</tbody>
</table>

Calcium Hydroxide is not listed as a carcinogen by ACGIH, MSHA, OSHA, NTP, DFG, RSST or IARC. However, Crystalline Silica may be present below or above detection levels <0.1%. Occupational exposure is dependent upon the handling method and specific application. Two ranges are disclosed for (T) Total Dust and (R) Respirable Dust.

#### Derived No Effect Lvl (DNEL): Predict No Effect Con (PNEC): Biological Limit

No information available  No information available  Not established by ACGIH or manufacturer

### Section 9: Physical and Chemical Properties

#### Physical State

- **Formula**: Ca(OH)2
- **Color**: Off white
- **Stability**: Reactive
- **Flammability**: Non-flammable
- **Explosivity**: Not flammable

Calcium hydroxide will react with air, strong acids and moisture.

</tbody>
</table>

### Reactivity
Ca(OH)2 dissociates in aqueous media forming calcium cations and hydroxyl anions

### Stability
Under normal conditions of use and storage, calcium hydroxide is stable

### Hazardous
Reacts exothermically with acids

### Incompatibility
Strong acids, phosphorus, maleic anhydride, nitro methane, nitro ethane, nitroparaffins, nitro propane, boron trifluoride, chlorine trifluoride, ethanol, fluorine, hydrogen fluoride, phosphorous pentoxide, some metals

### Decomposition
None - Calcium hydroxide reacts with carbon dioxide to form calcium carbonate

## Section 11: Toxicological Information

### Acute
Routes of Entry - Skin Contact, Eye Contact, Acute Inhalation, Ingestion

### Skin
Irritating and drying to skin - depending on exposure, moisture and duration of contact. Long sleeve clothing and gloves recommended.

### Eyes
Hazardous with eye contact (as irritant and high alkalinity). Possible lesions and blindness if left untreated for prolonged period. Wear appropriate eye protection (goggles) and avoid wearing contact lenses. Standard Draize (Rabbit) - 10 mg/24 hr - Severe

### Inhalation
Potentially hazardous. Respiratory irritation / inflammation of mucous membranes, coughing and sneezing. The extent of damage depends on amount inhaled. Wear appropriate dust mask

### Ingestion
May cause gastro-intestinal irritation and pain, vomiting, diarrhea, drop in blood pressure. Extent of damage depends on amount ingested. Rat- LD₅₀: 7340 mg/kg

### Sensitization
No sensitizing effects known.

### Chronic
Contact dermatitis.

### Carcinogenicity
No carcinogenicity data is available for this product. Calcium hydroxide is not listed as a carcinogen by ACGIH, MSHA, OSHA, NTP, DFG, RSST or IAARC.

## Section 12: Ecological Information

### Toxicity
Aquatic toxicity severe in high concentrations from high alkalinity (pH -12.454) in concentrations > 1 gram/Liter.

### Persistence and degradability
Not relevant for inorganic substances

### Ecological information
Not relevant information available.

### Other information
The product is not biodegradable.
Bioaccumulative potential - Not relevant for inorganic substances

Mobility in soil - Low solubility and mobility in most ground conditions

Additional information - Product generally nonhazardous at low concentrations. Frequently used in water treatment

PBT and vPvB assessment - Not relevant for inorganic substances

Other adverse effects - No further relevant information available.

Section 13: Disposal Considerations

Recover uncontaminated product where possible and reutilize or recycle for other beneficial purposes.

Dispose of containers and unused products as a solid waste in accordance with Federal, State and local requirements.

Processing, use or contamination of this product may change the waste profile characteristics and waste management options. Although not a listed RCRA hazardous waste, calcium hydroxide may exhibit high alkalinity and require refined analysis to

Section 14: Transport/Shipping Information

Calcium hydroxide is not regulated as a hazardous material by the Canadian Transportation of Dangerous Goods (TDG) Regulations or by the US Department of Transportation. (US DOT)

<table>
<thead>
<tr>
